

## GAIL SCOTT INTERIOR DESIGN

I have attended 2 of Colin's workshops and they have both been fantastic. On the "get clients now" workshop the advice is realistic, practical and applies to all businesses. You come away with an action plan which you have tailored to your own business. It is easy to follow and takes the fear out of selling, marketing and pushing your business forward. Oh what a relief to have some clearly defined goals and a list of daily actions to implement.

I have also been on Colin's 1 hour workshop on how to give a presentation and how to tell people exactly what you do in a very short time. This hour was one of the most worthwhile hours I have spent on my business. A few weeks after the workshop I had to give a 5 minute presentation at a breakfast meeting and the feedback from the people there was incredible.

I would recommend Colin's workshop to anyone who is serious about their business and wants to make 2008 their most successful year so far.
