

# Get Clients Now!™

Hello and Welcome,

Two years ago I didn't have the level of business I hoped for. My business was new and it was taking me a lot longer to get established than I'd planned for. As with most business people I always keep my eyes open to find new ways in which to land more opportunities.

Someone mentioned a programme called Get Clients Now! I signed up for it and carried out a 28 day action plan. Five weeks after I started the programme my business had doubled. I was impressed. So impressed I took out a licence to run workshops myself. Just to be sure that it really works, I ran the programme for a second time and again my business doubled.

I've got an MBA with all the marketing options. I've spent more than 20 years in Sales & Marketing. I've built business from next to nothing to tens of millions in revenue. In my opinion Get Clients Now! is the most powerful sales and marketing programme I've ever seen that is specifically tailored to the needs and requirements of individual business people, professional service businesses, consultants and those that generate business by word of mouth.

If you'd like more business and new clients, please consider attending a 1 day Workshop where you will learn;

- Why people really excel and have a thriving business, yet others struggle.
- How to best spend your time on marketing activities.
- How to create a stream of clients by carrying out 10 simple daily actions.

On completion of the Workshop you will have your own 28 day Get Clients Now! Action Plan which;

- Contains the Marketing Strategies you will use.
- Identifies the area in the Marketing/Sales Cycle you will focus on.
- States your 28 day Programme Goal.

## What has been said!

"Not only tells you the absolute truth about landing new clients, but also can transform a marketing amateur into a marketing genius" Jay Conrad Levinson, Guerrilla Marketing series author.

"Having attended the Get Clients Now course run by Colin, I will be putting all of our staff through the course. It works for getting clients but can equally be applied to other parts of the business and is a useful focussing tool. Colin delivers the course extremely well and coaxes people into taking part who may be a little shy. The net effect is that one goes away feeling energised and focussed."

Phil Terrett, Chairman—The Third Stage

"What Colin learned from working with my system was that the answer to managing his complex marketing situation was to keep things really simple. He streamlined his plan to make use of only two marketing strategies. Colin's results have been impressive." - CJ Hayden, Author—Get Clients Now!
